Dear Derrick

I wanted to properly thank you for the excellent work you did in setting up my Ltd company Gee Matrix Ltd.

I would recommend your service to anyone who wanted to set up a new business as you not only did this job with amazing speed and great aplomb, you also took the time to give advice and to support and confirm my decision to take this step.

I am absolutely certain that you will also support my business as a very able Company Secretary and that this alone will save me much bother and irritation.

As you say, I can now look after the business and Ordered Management will look after the company.
